4 April 1984

MEMORANDUM FOR:

FROM: Acting Director of Central Intelligence

Dick,

1. I talked to Chuck yesterday about the Center for the Study of Intelligence sessions [redacted] He pointed out that it was only for an overnight on Friday and with that I relented. Please continue to bear the burden. One day shouldn't make that much difference.

2. Please let me know if there is any particular time or day that you prefer for me to [redacted] spend a day with you. I would like to get a feel for what goes on in the classroom and training programs without screwing them up. I will be in Europe 22 April through 13 May so we can shoot for before or after whichever you prefer.

[redacted]
John N. McMahon
